STATISTICS ON PROCUREMENT OF MACHINERY AND ELECTRICAL EQUIPMENT BY SAG'S (65 pp; [REDACTED])

X
This document consists of [REDACTED] reports, most of them in both German and Russian, containing statistical data on allocations and actual receipt of machinery and electrical and telecommunications equipment at each of 14 SAG's (Soviet Corporations) [REDACTED] although one of the reports, covering 10 pages, is in Russian only, and another report on the SAG Awtowelo is less detailed, the majority are set up under the following headings: a) designation of machinery or equipment; b) unit of quantity (pieces, kilometers, thousands of Deutsche marks, and tons); c) total quantity allotted to the SAG concerned during the report period [REDACTED] d) of the total quantity assigned, the amounts scheduled for procurement from within the GDR, from the USSR, and from West Germany and other countries; e) total quantity actually received [REDACTED] by the SAG concerned, with a breakdown indicating sources; f) total quantity used [REDACTED] with a breakdown indicating specific use (production operations, current repairs, investment building, etc.) of the machinery and equipment; g) total quantity actually received [REDACTED] with a breakdown indicating sources; h) total quantity used from [REDACTED] with a breakdown indicating specific use (as described under (f)); i) stock on hand [REDACTED] j) position number of item.

Included in the above group is a 1-page report, in German [REDACTED] which appears to indicate the total quantities of 18 types of electrical and other equipment assigned to and received by all of the above 14 SAG's. Information is given under the following headings: a) designation of equipment; b) unit of quantity; c) total allocations for 1951; d) total quantities actually received [REDACTED]

[Note: [REDACTED] contains identical type of information covering the period [REDACTED]]

[Foreign language document or microfilm of it [REDACTED] is available from CIA library, [REDACTED]]
